

Craft Farms Property Owners Association

February Insights

Happy Spring Craft Farms!

Looks like Spring is here with the warmer weather AND azaleas and other foliage in bloom! Can you tell with your allergies peaking in February?

We are continuing to make great progress in decision making for all 3 entrances. Keep tuned for finalization of the contract and work to begin. You will be very pleased I have no doubt. Already looking better without the lattice and posts!

If anyone needs to spruce up their mailboxes either with a new one and post or to have it cleaned, etc. please contact Cindy Woodson (251-948-3039) for a work order for Brooks/Glen. You will then be billed on your POA dues for parts/time/labor. We had many responses from our January Insights in keeping our villages looking good and desirable.

On that same note, you need to call Cindy Woodson or your rep for any maintenance work that needs to be done by Brooks or Glen. A work order must be submitted prior to work being approved. Thank you.

Please remember you can access covenant/restriction information on this website www.craftfarmspoa.com, as well as rep and director information.

Also as a reminder, please take a look at where your trash containers are placed in your yard. They must be positioned out of site from the golf course, your neighbors and street. Reminder trash bins should only be placed out by the curb on the DAY of pickup and removed the same DAY. Also, any storage containers should be out of site. We appreciate your cooperation.

Thank you
Craft Farms POA Board
